Hi Sherri,

It's a pleasure to hear from you.
I'd forgotten until now that you had left OSAPE to work with Brian.

You calendar looks full this afternoon, so let me sort of "think aloud" about what I know.
Let me know if this is enough context or if you want to talk.

Ex. 5 Deliberative Process (DP)

Some Air-related work I think you

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I assume Chris is looking for big picture, not diving into specific projects. If he wants to dive into projects, there could be done with some kind of followup.

I have attached for you a partial set of slides. You can see how I laid out RAF work and you can see what HERA/CPHEA put in there and what SSWR put in. [CSS is going to provide some slides tomorrow or early next week.]

David

PS: I'm doing okay. Sometimes aspects of RAF work really well (I participated in a really nice Tech Panel meeting today). At other times, the level of contentious debate and conflict is discouraging. Hoping to see more of the former and less of the later....!

Hi David!

This requested got passed along to me and it seemed like a good excuse to see how you're doing. How are you??

Also, we were just having a

Let me know. My calendar is generally up to date if a phone call would be easier.

Regards,
Sherri

Hi Angie-

Per the request below, can you review our products and see if any of them are addressing cumulative risk?

Thanks,
Bryan

Hi Andrew, Bryan, and Suzanne,

A briefing is being prepped for Chris Frey on cumulative risk research efforts in ORD. The stems from a meeting a few weeks back with some of the EJ leaders with the new EPA team. I had reached out to HERA and CSS already about if there were activities in their StRAPs that got at cumulative risk, but wanted to ping you all as well to see if there was anything in the SHC, AE, and SSWR domains? David Bussard has been compiling the slide deck for this briefing (since a chunk of it is going through the history of cumulative risk efforts in the RAF). If you could let him (and me) know of anything that fits, that would be great. The briefing will probably be scheduled in the next 2-3 weeks, so if you could get us any responses in the next week or so, that would be great. Thanks in advance!

-Lou
